- ❖ My first experience at one International Subud Congress was unforgettable personal and spiritually, the Susila Dharma Group has very special people that I would like to see again.

VISIT TO PROYECTS

I was visiting the municipality of San Pablo and the Cunday town ubicated at the center part of Colombia. There are ancient people that live alone because the young family goes away to the big cities and abandon the grandparents in the poverty . Consuela Hernández is looking for resources to create a geriatric home to offer a better life quality to this population.

I was visiting the INSTITUTO TECNOLOGICO DE OCCIDENTE that functioned in Mosquera District at the south part of Bogotá.

Mosquera is actually one of the places were displaced people arrives, looking for better life conditions. Mosquera demand more school capacity because Young people needs to study.

FIRST PROMOTION OF HIGH TECHNICAL SCHOOL

**INSTITUTO TECNOLOGICO DE OCCIDENTE
Mosquera. COLOMBIA**

KINDERGARDEN GROUP

This School was created for low resources students with the effort of a familiar association named ASOFASOL that graduated the first group of technical high school students at December 2005. They need to increase the number of classrooms to attend the demand.

This Project had been autosostenible during 7 years, students pay that they can depending of their economic capacity, they receive love and care like in a family. The students are educated with high academic level besides that you can see and feel the dignity and the values with they are growing
