our commitment towards humanity

2006 Annual Report

Since many disasters happened in Indonesia for the past two years, started with the Tsunami in Aceh on the last December of 2004, then the Earthquake which happened in Yogyakarta on May 27th 2006, and also the Earthquake and Tsunami that happened along coast of West Java till Yogyakarta on July 17th 2006, all of the Subud member and Susila Dharma from other country had cooperate together by participated in giving many of emergency aid.

On behalf of Susila Dharma Indonesia we would like to say thank you very much to all participants which have given us their help, either in morally or material aid, and especially to The Susila Dharma International that already helping us in distributed the grants through emergency aid together with other humanity organizations. After the emergency crisis ended, we created a trauma relief program as well as economic recovery by providing capital aid to the victims in order for them to be able to start working actively again.

In March 2006, we sent one of the Project Managers from Bandung to join training as a social worker in Japan for ten months. The training was sponsored by Japan National Council of Social Welfare (JNCSW). DI has been trusted by JNCSW to choose and recommend one person every year to attend this social worker training there. This year we have selected one person out of nine candidates, who is from Pulih Foundation.

On March 22, 2006 the concert of soprano Cherie Valaray and pianist Ary Sutedja was held in Goethe Institut, Jakarta. The Sydney International Cultural Centre (TSICC) produced this event to benefit social welfare projects of Susila Dharma Indonesia.

On the middle of November 2006, SDI has the trust from Japan National Council of Social Welfare (JNCSW) to organized one year economic recovery program for the earthquake victims in Yogyakarta at 2 million Yen grants. This program started on mid December 2006 and will be over on December 2007. For further, SDI has to make a monthly report for the monitoring and evaluation on this economic recovery program, such as micro credit which distributed to 29 small entrepreneurs in Trimulyo village, Bantul.

This would be a brief note on SDI activities in 2006. We wish to thank all donors for their contributions, trust and friendship to Susila Dharma Indonesia.

Jakarta, January 31 2007

Ariana Susanti
Chairperson

Micro credit projects to small scale entrepreneurs

2006 Activities:

Project Visit

In the period of 2006, SDI team made a few visits to the projects. There, SDI team has the dialog with the Project Leader and also people in surroundings to know more about their problems and needs in the project.

Cherie Valaray and Ary Sutedja

A Benefit Concert

On March 22, 2006 the concert of soprano Cherie Valaray and pianist Ary Sutedja was held in Goethe Institut, Jakarta.

Cherie was born in Hungary and her voice is reviewed as "having unbroken range from mezzo through soprano and coloratura, enhanced by an ability to float high pianissimo's and to bring fresh dramatic and musical interpretations to famed arias in lyric and bel canto repertoires".

Ary Sutedja is renowned as one of Indonesia's finest classical pianist and accompanists. She toured as accompanist for Bremen Opera in Germany and co-founded the Classical Nurances trio which gave concert in Asia, USA, Europa and Australia.

Thank you to Cherie, Ary, The Sydney International Cultural Centre and the team makers, McKingley families. The Sydney International Cultural Centre (TSICC) is producing this event to benefit social welfare projects of Susila Dharma Indonesia.

Micro Credit Training

SDI sent two people to join the workshop and internship program in Masyarakat Mandiri, which is a part of Yayasan Dompot Dhuafa, located in Parung, Bogor. This foundation is well-known for their micro credit program, and has proven their success in a few locations.

Social Programs

In June 2006, SDI with the team from USAID and FAIR conducted the Mass Circumcision program for 29 children who come from needy families in order to celebrate Bapak's anniversary.

Disaster Relief

SD Indonesia responded quickly and active part in the Emergency Relief in Yogyakarta earthquake, and West Java tsunami.

Emergency Aid for the Earthquake Victims in Yogyakarta

The emergency aid was distributed to help earthquake victims in Yogyakarta, including the renovation of the Subud Hall Yogya and aid for Subud members who are victims (one person passed away, five families with destroyed houses, and eight families with cracked and damaged houses).

On the first phase, with the help of 29 voluntary workers from Subud Yogya and Subud Youth, as well as youth from Gajah Mada and Sanata Dharma University, concentrated their activities towards logistic and food distributions, distribution of medical supplies, tents, and other emergency needs to the earthquake victims. Besides that, "Ibu Peduli Team from Jakarta collected donations to be given to Subud Yogya to help the Subud members who are victims.

SDI also received food distribution from FAIR (Great Britain Alumni Forum) which was coordinated by Suryadi Haryono; as well as the charity concert that was organized by Suryani Asikin, Fauzia Ismail and friends, to collect dinations.

2006 Activities:

In this emergency aid, SDI that was represented by the Yogya Team worked together with the International Organization IOM (International Organization for Migration) to distribute things for the relief needs, such as: tents, blankets, waterproof canvas, medical supplies, etc. All of this is a short-term project called "Emergency Shelter Distribution". After the emergency aid phase, this program is taken over by Subud Youth, since SDI then concentrated on another emergency aid for the Pangandaran tsunami on July 17th 2006, which was coordinated by Mrs. Sutinah Sudarsono as the Chairperson of SDI West Java.

On the second phase, SDI has running a "clean-up and rebuild" program. SDI helps the earthquake victims to clean up the crack and ashes from their destroyed houses, by priority at the environment where Subud members lose their homes destroyed.

One the third phase of this recovery is to provide an amount of cash money or the construction material for helping the earthquake victims. In this phase, the provided grants on budget will be used for handling cost of the bamboo house for all Subud members. We gave them choices to make a bamboo house. But not all Subud members agree, there's only one person who wants to build a bamboo house, and the rest prefer to choose reusing the house cracked for rebuilding their houses. So that SDI gave them cash money to buy some of construction material, such as: bricks, cement, sands, wood to build roof, tools, and for the workers payment – at the same amount of bamboo house building.

SDI has also built a bamboo house in Wonokromo village, Bantul. The in charge person of the project is from the Subud Temanggung Team.

On the next phase is the participation of the program which coordinated by the Social Department in province. This program duration last for about 3 months, started on July 15th till October 15th 2006, and the program called "Children Shelter Program and The Health Nutrition Program". The aimed of Children Shelter Program is to provide educational activities for the survival children from the earthquake,

since their normal school activities were impossible to be held because there's no more school building and all the education material is gone. This program targeted 150 kids from the Bembem and Botokenceng village, Bantul.

In Tegal Lurung village, Gilang Harjo, Bantul which contains of 255 families, SD Indonesia through Subud Yogya have distributed aids such as: gedeg/bilik (sheets that made from the bamboo skin to make a partition), to all of the people there viewed by the Head Village.

In August 2006, SD Indonesia sent two persons from Subud Yogyakarta to join training about bamboo house constructions for two days facilitated by Out of Asia. Person in charge as a facilitator in this workshop is Mr. Joerg, a UN consultant who works in Bantul, Yogyakarta.

In September 2006, SDI organized training about children trauma relief, whom facilitated by DR. William Spear and DR. Roni Beerger, representation of UN. This workshop followed by 17 volunteers, including SDI team in Yogyakarta.

On the middle of November 2006, SDI has the trust from Japan National Council of Social Welfare (JNCSW) to organized one year economic recovery program for the earthquake victims in Yogyakarta at 2 million Yen grants.

This program started on mid December 2006 and will be over on December 2007. For further, SDI has to make a monthly report for the monitoring and evaluation on this economic recovery program, such as micro credit which distributed to 29 small entrepreneurs in Trimulyo village, Bantul.

Emergency Aid for the Earthquake and Tsunami Victims in Pangandaran, West Java

Emergency aid program distributed to help an earthquake and tsunami victims in West Java. SDI through SDI West Java which organized by Mrs. Sutinah has giving their help in a few phase, started on first phase until the third phase.

This help contains emergency aid to economic recovery of the community (the victims). Other program held in Pangandaran was the fisheries tools for the needs of fishing. The aid was a nylon made fishing net and a fish finder tools, which given to two groups of fishermen in Perum village, Parigi, Pangandaran, West Java. This given aid was distributed for 20 packages nylon nets include the fish finder, and this moment was viewed by the local head (RT).

SDI has done a survey for economic recovery program in Pangandaran community with the micro credit program which planned to start on February

2007. The beneficiaries of this project are small entrepreneurs who have been the victims of the earthquake and tsunami in Pangandaran. Their sales scope was categorized as a micro enterprise and they worked as a small entrepreneur or home industries such as: sales fries, meatballs, noodle, coconut juice, etc.

Fundraising

Since December 2005-2006, SDI has received grants for Rp 998.819.377,- More than 88% grants are aimed to the project activities, and it cost for about Rp 887.969.010,-

Projects:

1. COMMUNITY DEVELOPMENT (4)

- Community Centre, Banda Aceh (YUM-JNCSW)
- Community Village Development, Brebes, Central Java (YUM)
- Forests Conservation Development, Central Kalimantan (YTS)
- Environment Awareness, Central Kalimantan (YTS)

2. EDUCATION (4)

- Preparatory School – Learning Centre, Jakarta (YUM)
- Bina Cita Utama School, Rungansari, Central Kalimantan (BCU)
- Cita Buana School, Jakarta (SCB)
- Teunom Pre School “TK Mekar Belia”, Aceh Jaya (YUM-IRDN)

3. HEALTH (2)

- Malaria Monitoring Control, Central Kalimantan (YUM-IRDN)
- Clean Water, Central Kalimantan (YUM-IRDN)

4. FAMILY SUPPORT (5)

- Children Village Cipanas, West Java (YUM)
- Empowerment for the Street Children, Bandung, West Java (YSS)
- Harshness Management, Bandung, West Java (YSS)
- Social Orphanage, Ciwidey, West Java (YH)
- Student Scholarships KKC, Palangkaraya, Central Kalimantan (YTS)

5. MICRO CREDIT (5)

- Micro Credit WTW, Central Kalimantan (YUM-IRDN)
- Micro Credit, Banda Aceh (YUM-IRDN)
- Micro Credit, Bandung, West Java (SDI Jabar)
- Micro Credit, Pangandaran, West Java (SDI West Java)
- Micro Credit, Yogyakarta (SDI-JNCSW)

6. ECONOMIC EMPOWERMENT (3)

- Bamboo Craft, Ciwidey, West Java (YH)
- Strawberry Garden, Ciwidey, West Java (YH)
- Cooperative Work “Susila Bhakti”, Wlingi, Blitar East Java (KSB)

1. Cipanas Children Village (DAA)

This village established by YUM (Foundation for Noble Work) on 1976. It was a shelter place for orphanages and other unfortunate children, where they provide family love and caring ambience, foods, clothes, place to lived, education, workshop and vocational training, and also medical treatment.

2. Preparatory School – Learning Centre

This school established by YUM (Foundation for Noble Work) on 1982, they provide education chances for many homeless kids in two slum areas in Jakarta. After one year studying in this school, the student may qualify to enter public school.

3. Community Village Development

This village established by YUM (Foundation for Noble Work) on 1981, located in Grinting village, Brebes, Central Java. The activity centre were fully support by German Government (BMZ) for the last 12 years and through Susila Dharma Germany, it might caused the community to cooperate together in fighting poverty, including the workshop training skill, self activities, and community development.

4. Teunom Pre School, Aceh

This school first established on 2005 by support of Subud Creston, USA through IRDN, and it was located in Teunom, West Aceh. This program aimed to rebuild a pre school for about 50 kids which formerly destroyed by the Tsunami disaster on 2004 in the west coast of Aceh.

5. Aceh Community Centre

This community centre was established by YUM (Foundation for Noble Work) on 2005, aimed to help community development in Aceh after the Tsunami disaster. The community development centre provided many services, such as: counseling, workshop room, work and skill training, medical treatment, sport facilities, micro credit, and also child development.

6. Malaria Monitoring Control

This program was established by YUM-IRDN on 2005, located in Bukit Batu village, Central Kalimantan. They provide assistance to help on the prevention and treatment of Malaria through education and community empowerment program, medical care, mosquitoes treated bed nets, and environmental sanitation to prevent the growth of mosquitoes from breeding.

7. Micro Credit in Central Kalimantan

It was first established by IRDN (Indonesia Relief and Development Network) on 2002, the program called micro credit for women WTW (Women to Women). This program aimed to support women who were running a small enterprise, such as: home farming and other home shops in Central Kalimantan. This also included a management training program for home industries, savings, and other aspects that related to community health.

8. Clean Water

It was established by IRDN (Indonesia Relief and Development Network) on 2000. This project helped to provide clean water for the rural area and it was implemented in many specific locations, requested by local community cooperate together with PT Rungan Sari Permai, IRDN, and other local community in Central Kalimantan.

9. Children Library

It was established by YUM-IRDN on 2006, an effort to restore chances in reading books and other education materials for the youth and children, and also to improve the liking of learning and reading habit.

10. Forests Conservation Development

YTS (Tambuhak Sinta Foundation) was established on 1998 by PT. KSK (Kalimantan Surya Kencana), a mining exploration company in Central Kalimantan who owned by one of the Subud members. Heart of Borneo program (HOB) in this Central Kalimantan province collaborate with The Nature Conservancy was used for a research called "High Conservation Value Forest". This time, HOB, was being promoted by WWF to make conservation in 14% from the width of Kalimantan islands. Conservation was an important issue in Indonesia, especially with the sustainable attention to the rapidly forests decrease, and the potential impact on environment, such as: the damaged of nature, land drops, dried, and the flood.

11. Environment Awareness

The program established by YTS (Tambuhak Sinta Foundation) on 1998 and it was an effort to give as much as useful information about mercury (air raksa) to all the people in Kereng Pangi city in Central Kalimantan. They also cooperate with schools, local medical centre, and gold shop in Kereng Pangi city, and to all the small scale gold miners at the mine location. This program collaborate together with Global Mercury Project UNIDO – an environment program that aimed to reduce impact from the practice using unsafely mercury, by strengthen the planning of participative process from traditional gold miners.

12. Student Scholarships

The program established by YTS (Yayasan Tambuhak Sinta), and it was give scholarships called "Kalimantan Kids Club". This scholarship was given to the needed students from the remote areas in Central Kalimantan. On 2006, there were 17 students who received this scholarship - 60% college students, 35% high school students, and 5% elementary students. By the end of 2006, there were 7 participants who finished their education. Usually the scholarship was given for 2 to 5 years of education, including the living costs and the monthly education payment (SPP).

13. Education

Bina Cita Utama School established on 2005 in Rungan Sari. This international quality school was opened for a first grade, second grade, and third grade student. On the first year after the opening, there were 35 students accepted. This school also developed scholarships program for the unfortunate children from around the village of Rungan Sari, Central Kalimantan.

14. Education

Cita Buana School established on 1995. This school belief was a bilingual school which can prepare student for the job world after they have completed their academic studies. A combined curriculum (Indonesian national and Australian Queensland) in grades kindergarten through 11th, enables students to enter universities in Indonesia or abroad. On the teaching year of 2006 – 2007, Cita Buana has 317 students. This school also developed handicapped kids and Autis kids. By this year has bought a land at Paso Street for about 9.540 m2 wide and now has entering a two floors building phase, and we all hope that by the year 2008 this school has completed stay in the new location.

15. Social Orphanage in Ciwidey (PSAA)

This place established by Subud Bandung in the name of Harkat Foundation on 1989, located in Ciwidey, Bandung, West Java. The place width was 1,3 hectare, and now PSAA Harkat has 11 foster children, 5 boys, 6 girls, and other 6 trainee child.

16. Strawberry Garden Empowerment, Ciwidey

Harkat Foundation has started a strawberry garden project since March 2006. with the growth of 2 800 trees, but they don't have much technique knowledge about this project, it wasn't going well. In September 2006, there was a revision on management, counseling, training, etc, so that we can count on the management staff then.

17. Bamboo Craft Empowerment, Ciwidey

The Harkat Foundation started their Productive Economy Entrepreneurship project such as: bamboo craft skills, where 8 Harkat youth has been trained and practiced to live the foundation. The basic materials were easy to find in surround Ciwidey, so that they could easily worked the craft. The crafts were bamboo houses in Yogyakarta, village in Banjarmasin, and a restaurant in Tegal. While for the bamboo furniture, they got orders from cafes and restaurant in surround Ciwidey and Bandung.

18. Empowerment for the Street Children

This project established by Saudara Sejiwa Foundation (YSS) on 2000 in Bandung a street children empowerment by giving them chances to raise better job and make a groups called Kelompok Usaha Bersama (KUBE). They consisted of 150 street

children from the urban areas in Bandung. KUBE program that has been running until now were a shelter house which used for motorcycles washing station, tire station, hair cut salon, alarm making and selling, and the motorcycles gas reducers as a result for the kids who already join the vocational training.

19. Harshness Management

Established by YSS (Yayasan Saudara Sejiwa) in 2000 in Bandung. Harshness is a crime against humanity. The rising rate of harshness cases in Indonesia shows that more people has now dare to present their cases which were hidden previously. YSS activities in consultation and advocate services, plays a role as a foundation of guidance for families or community who has psycho-social problems., and is also financing small enterprises, giving talk show in radios, both in local government radio as well as other private radios.

20. Cooperative Work "Susila Bhakti" in Blitar

This cooperative project established by Subud Wlingi, Blitar on 2006. They aimed to developed potential skill of Subud Blitar branch members or other community surrounded, especially kids who formerly drugs users and street people through woods and furniture skill, automotive skill, electricity and las karbit, sound system rentals, glasses selling, plants and vegetables, and lele fish plantation.

21. Micro Credit for Small Scale Entrepreneur in Bandung

This program established by SDI West Java on 2006, the revolving funds given to small entrepreneurs and so far they were already going well. Meanwhile, for now, this program has involved 30 small entrepreneurs. From the survey result, founded that they were really excited and eager on, and they also felt the benefit of the aid (micro credit). The micro credit profiles are: cheese stick cakes maker, dolls maker, raw vegetables kiosks, snacks kiosks, motorcycles station, cigarettes kiosk, fruits sellers, and other food kiosks such as "nasi rames", "satay", "lotek", etc.

22. Micro Credit for Small Scale Entrepreneur in Pangandaran

The revolving funds called micro credit has given to small entrepreneurs in Pangandaran village and Sukaresik village who had been the victims of tsunami disaster as an economic recovery program. The micro credit candidates creates two groups who are lived in two different villages, each group contains 10 members.

23. Micro Credit for Small Scale Entrepreneur in Yogyakarta

The beneficiaries were a small entrepreneur who has been the victims of the earthquake. The revolving funds called micro credit which has been the economic recovery program supported by Japan National Council of Social Welfare (JNCSSW), which has spread to 29 small entrepreneurs in Trimulyo village, Bantul since December 10th 2006 and will end on the next 10 December 2007. This program running for about one year and every three months there will be a routine evaluation and monitoring phases.
